# Herbert W. Armstrong marries

## Tucson wedding

The entire Worldwide Church of God will rejoice at the news that its sole Apostle and Leader has married again. Once more our Pastor General has a wife by his side as helper in the arduous responsibility God has

committed to him of walking through doors providentially opened to Kings, Emperors, Presidents, Prime Ministers and those high in governments in all continents of the earth.

Since the death of Loma D. Armstrong, 10 years ago, Mr. Armstrong has had to carry on despite loneliness. in this NEW DIMENSION of the work which kept him away from home 300 of the 365 days of the past year.

Many rejoice that God has provided, in Ramona Martin, a wife who can withstand the arduous rigors of this almost constant worldwide travel. God says it is not good that a man should be alone — and for that very reason He created woman. The Apostle Paul traveled a great deal, and, while he himself never married, he wrote: "Am I not an apostle?... Do we [apostles] not have the right to be accompanied by a wife ...?" (R.S.V. translation).

In this new dimension of Mr. (See MR. ARMSTRONG, page 8)

## Bride in Work 15 years

TUCSON, Ariz. — How did Herbert W. Armstrong come to meet his new bride, the former Ramona Martin?

The new Mrs. Armstrong, who had been in the Work for 12 years at the time, was commissioned to personally bring a large quantity of promotional literature to Manila, Philippines, from Pasadena, where she was working. The literature was needed immediately for backup for Mr. Armstrong's 1974 personalappearance campaign there.

"Because of the urgency of the situation," Stanley Rader recalled, "she was asked to bring the needed literature as extra baggage and come with it on the very next flight out of Los Angeles. After arriving in Manila, I decided she should be retained as a secretary and a part of our traveling team.

"For the first several years that Mr. Armstrong and, I traveled overseas we did not have any help, other than that provided by my wife and then later by Mr. Armstrong's daughter. By the time of the Manila campaign our staff had increased somewhat. Mrs. Martin had special abilities and talents which made her a (See MR. ARMSTRONG'S, page 16)

A Personal Letter

This is the morning after an epochal event in my life. I want to write you my own summary of the most recent 3<sup>1</sup>/<sub>2</sub>-week trip to South Africa. But, this being the morning after an event such as happened right here in my new home in Tucson, Ariz., it is naturally freshest on my mind and so I am going to write this as I personally *experienced* it first.

Mr. John Robinson, our managing editor, was here and has given you his report on it. But I have learned from it that life does have some experiences for us — IMPORTANT experiences too — and I think it well that we realize these things.

Yesterday was my wedding day — my second, since my first was 60 years ago and ended in the death of my beloved wife 10 years ago.

First I did not realize that a man my age —actually I am now 39 going on 38 (but the CALENDAR MISreports my age as 84) — could experience the sAME emotional experience of being up on cloud nine that I did as a young man of 25 at the time of the marriage to the wife of my youth. I supposed only YOUNG people experienced that emotion of ecstasy about engagement and a marriage.

Some four or five months ago, Mr. Stanley R. Rader, my chief adviser and assistant on our traveling team, suggested one day when we were spending a few days in Palm Springs that we each buy a small house in Palm Springs for an occasional place to "get away" and rest. But we found there were many more advantages for us in Tucson. So some weeks ago we each did buy a place here in Tucson.

My new home here is only about half furnished so far, but livable. (See PERSONAL, page 9)

## Mr. Armstrong recaps journey

By Herbert W. Armstrong Readers of The Worldwide News already have read a synopsis diary of the latest South African visit. But it was brief — just a summary diary. I would like to give some of my personal reactions and highlight some of the really IMPORTANT events, which in a brief diary form gave the reader no insight whatever to the true importance and significance of some of these events.

The itinerary was largely arranged by Mr. Robert Fahey, manager of our South African headquarters, with offices in Johannesburg. I think Bob took me *literally* when I said I am now 39 going on 38.

A year or two ago 1 was saying I was 37 going on 36. But this is written two days after my recent wedding, and the new Mrs. Ramona Armstrong is in her 39th year — that is, 38 going on 39 — so 1 have had to change my *REAL* age (my calendar 'age Misrepresents me as being much older — but I rate my age according to current capacity, activity and accomplishment. Some men are oLD men at 45 or 50).

### A Few Still Young

I know a very few, like Dr. Floyd Lochner, who are still YOUNG men in their activities and accomplishments at 64. In his college days, at the University of Oklahoma, Dr. Lochner won all the distance races in track, and held the WORLD'S RECORD in the two-mile steeplechase. In fact, the present world record is only one tenth of a second faster than the record he set. Now he intends to once again break the world's record in the twomile run or the two-mile steeplechase in a meet for men over 60 this coming year at Paris, France.

The Great Commission

I don't think I'm vain when I say I do not FEEL 84, I do not LOOK 84, I do not act like 84, but I do the job God (See MR. ARMSTRONG, Page 7)

## 'Stirring experience' recorded by minister

JOHANNESBURG, South Africa — When Herbert W. Armstrong visited Namibia during his recent travels in southern Africa (*The Worldwide News*, March 28), one of the people accompanying him was Martin Bode, a minister of the Church and computer-systems analyst for the Work's offrice here.

Mr. Bode, who speaks fluently the three principal languages of Namibia (South-West Africa) — English, German and Afrikaans — was asked to assist Mr. Armstrong on his Namibian trip in whatever way possible.

The following is Mr. Bode's report of Mr. Armstrong's activities:

Monday, March 14, Capt. Ed

Black landed the G-II at Eros Airport, on the outskirts of Windhock, capital of South-West Africa/ Namibia. As on the previous occasion in November, 1976 (when Stanley Rader and Robert Fahey, director of the Work in Africa, represented Herbert W. Armstrong at a Rotary luncheon), the G-II landing caused quite a stir. It is the only jet aircraft landing at Eros, which has a very short rumway; commercial jet aircraft have to use the airport 40 miles outside of the city.

All work seems to stop when the G-II is around, as people speculate whether the runway will be long enough for takeoff in the heat of day at that altitude. Similar aircraft of the

Dear brethren in Christ:

Greetings from Wichita! I've just returned to my hotel room following a very thoroughly moving and won-derful afternoon spent with about 1.650 of you brethren from Wichita Salina, Hays and Coffeyville, Kan., and Oklahoma City and Enid, Okla. and am looking forward to a major church social with the brethren from the Kansas and Oklahoma churches in Wichita this evening. I announced before my sermon my father's mar-riage, as you will see from the first page and other articles and my father's own "Personal" in this

I had told my father on many occasions I would have felt very awkward and perhaps, from an emotional standpoint, would have been unable to perform the ceremony. But at the very last minute, even though he had called upon the local pastor of the Tucson church, Mr. Larry Neff, to perform the ceremony, I called him aside and asked him if I could perform the ceremony. And in retrospect, as I think back

at his immediate and spontaneous outburst of deep emotion and affec tion toward me, his expressions of deepest thanks toward me for grant-ing him his wish, I am very thankful that I was able to overcome my emo tional reservations and grant him his wish.

I would like to repeat for you here a step-by-step explanation of events as they transpired on that day, I told our ministers in The Bulletin.

### Big Bear Hug

His answer to my request was a big bear hug and quite literal tears of rejoicing, and he told me with great emotion that I had given him the 'greatest wedding present'' I could ever have given.

He was so bubbling over with joy and happiness that I felt I could not withhold such a personal expression of my own emotion and love toward him by not granting his request,

Reader suggestion I just finished reading Mr. GTA's "Personal" in the April 11, 1977, [WN] and was very sad to hear of brethren of God's Church being taken advantage of through "unwanted" mail.

I have a suggestion. Why not print the ame and no address of those who send in "request or ad of any kind"?

State in the WN that all addresses are on file and only eligible to a subscriber of the WN who sends their WN label plus self-addressed stamped envelope. Viola R. Cossel

#### Thornton, Colo

Mrs. Cossel, whose letter arrived just as we were putting the finishing touches on our new remailing system for person-als, proposes a procedure basically the same as the one we came up with (see page 10). We don't ask that readers send in self-addressed, stamped envelopes with their personals, as Mrr. Cossel ug-gests, but we'll keep the idea in mind for future reference. Our system is admittedly still experimental, and we expect refine-ments will come along. as we were putting the finishing touches

Namibian transcript Just read March 28's news. I hope you will continue to publish *transcript* speeches of Mr. HWA with heads of state, etc. This is the "next best thing" to being there. Please give us more! It's like which he had repeated to me over the course of many months, and so changed my mind at the last moment

and did perform the ceremony. Without meaning or implying any undue sentimentality or emotion, I would like to tell you that it was the most moving ceremony (as you can well imagine) that I have ever performed, and perhaps one of the most difficult.

I began with very informal remarks, saying, "This is a unique oc-casion, if not in all of history, at least in the history of this Work, for a son to perform the wedding of his own father." and I told the audience not to be nervous, "because I am nervous enough for all of you!" I then read through the standard

wedding ceremony, commenting prior to beginning that I was going to use the same ceremony written by "this man who designed this cere-mony from the Word of God when he was first called into God's Work when I was yet a little boy up in Oregon.'

### **Humorous Aspects**

I cannot help but relate to you a very humorous aspect of the cere-mony and at least two strange things which occurred during the wedding which I have never seen or heard before in the many ceremonies I have performed. One was uproarious laughter; the other was a burst of applause at the conclusion!

The laughter came when wondering how I was going to manage the question, "And now do you, his first name . ." I said, "And now do you, *Dad*, take . ." Upon his very positive affirmation of "*I do!*" I looked soberly at him, nodded, and said, "I thought you would." At this the entire assembly burst

into spontaneous laughter. continued with the ceremony to the con-clusion, asking God's blessing upon the union in prayer, and at the end, as Mr. Armstrong placed the wedding band on his new bride's finger, there (See PERSONAL, page 15)

a mini-Feast when I can read of Mr. H.W. and what he is directly saying to the leaders of the world.

What's going on We enjoy getting *The Worldwide News* and read it at once. It is the only way we and read it at once. It is the only way we have of hearing from the Church about what's going on. The personal-letter col-umn from GTA is especially welcomed. Mrs. L.B. Morgan Dubai, United Arab Emirates

#### Sorry, Walter

The recent recovery alive after 11 days of burial in earthquake debris of a victim [of the March 4 Rumanian earthquake] was truly good news, if good news can was truly good news, it good news can come from a tragedy. Walter Cronkie on CBS news read that this was a record length of time for survival without food and water. Sorry, Walter, CBS and any other media who thought this was a rec-ord! It seems that Moses went 40 days without for dead water 600 and 42000 without food and water (Exodus 34:28) without food and water (Exodus 34:28). Later on Eligh repeated that (I Kings 19:8). Lastly, we all should remember that our Saviour fasted 40 days and nights (Matthew 4:2). It is unknown if the earthquake victim

[reportedly a teenage boy] called out to God. But whether he did or not I'm sure God helped him. It's a miracle he survived It's another miracle that Moses Elijah and Jesus survived. We know that they called on God.

## America: on verge of a mistake

By Gene H. Hogberg News Editor, 'The Plain Truth' PASADENA — While Jimmy Carter's plans to combat the looming energy crisis in America have grabbed of the headlines recently, another development of perhaps far greater significance to the econor health and military security of the United States has received only minimal attention

Representatives of the United States and the Republic of Panama are deep into a round of negotiations with the aim of producing a new treato replace the 1903 pact under which Panama granted the United States control "in perpetuity" of a 10-mile strip across the Central American ist

The negotiations have proceeded in a start-and-stop fashion over 12 years but have picked up a bit of steam since Mr. Carter took office, even though he had promised, probably to counter Ronald Regan's strong don't-give-up-the-canal stand, that the United States would not surrender "practical control" of the vital sea gate.

Mr. Carter had hoped to have a new treaty ready to present to the Senate, which must approve it by no more than 38 negative votes, by June. But obstacles have surfaced, principally because tiny Panama is taking a hard line.

I will cover this critically important issue in detail in the July Plain *Truth*, but here are some factors:

• Panama is demanding - and America will concede — sovereignty over the Canal Zone no later than three years after the treaty goes into effect.

· Panama is willing to let the United States stay on and operate the canal (since it can't do it itself) "in partnership?" with Panama until the year 2000. After that Panama does not want to have any more Americans around on the isthmus. The American negotiators are pleading with Panama to let them hang on a little longer, say to 2025.

Panama, of course, is not willing to pay anything substantial for America's \$7 billion investment in the canal and, in fact, insists that the United States vastly increase its an-nual payments to her for the privilege of using the canal after it gives the waterway up.

If my words sound a bit sarcastic. they are intended to; the more dip-lomatic prose will appear in *The* Plain Truth. But the fact is, the Unit-ed States has consistently given in to Panama's unwarranted demands regarding the canal almost from the day Panama solemnly agreed to grant the zone "in perpetuity" — meaning for-ever — to the United States in 1903.

On the one hand, the United States has faithfully observed its commitment to operate the waterway on a completely fair and equal manner. open to all nations at reasonable rates. (Panama, by contrast, aims to milk the users of the canal - the big

ones being America, Britain, Japan, Norway and Greece — for all the traffic will bear, short of forcing shippers to consider sailing around

Cape Horn again.) In its relations with Panama, however, this country has never been able to say no to Panama's outrageous demands reinforced by occasional temper tantrums. The whole history of negotiations with Panama has been a succession of one-sided concessions, with Panama offering nothing in return but a promise to be-have better.

### A Question of Covetousness

Recently I talked with one of the foremost authorities on the Panama Canal question, Professor Donald M. Dozer of the University of Califor-nia, Santa Barbara. A full interview with Dr. Dozer containing his frank, sobering, even frightening, analysis of the canal situation will appear with the article. But I thought I would pass along a couple of questions and answers from our conversation

How do you answer the familiar cry that the United States has exploited little Panama?

"That is not a fair charge at all. The United States has made an honorable record in operating the canal as an international public utility at minimal charges and no financial profit to itself.

"The very success of the United States in building and operating the canal and in developing the Canal Zone, when contrasted with the conditions of underdevelopment in the Republic of Panama, has filled namanian demagogues with envy, which has driven them to covet their neighbor's canal and Canal Zone. There would be no canal problem today if these politicians would fol-low the commandment "Thou shalt not covet thy neighbor's Canal Zone, his canal or anything that is thy neighbor's

If the United States relinquishes its control of the zone and the canal, what is to prevent tiny Panama from sooner or later being swept into the expanding Soviet orbit?

"Very little. It can easily be anticipated that, with the removal of the United States' authority, Panama will again become a focus of international valry as it was for many centuries before the United States brought law and order there. Besides, what defensive capability does Panama have to prevent a Soviet takeover of this in. ternational waterway? Only the United States possesses this capability.

### Soviet Objective

"Anyone who understands anything about geopolitics and Soviet world strategy knows that the control of strategic waterways of the world, of strategic waterways of network, including the United States Isthmian Canal, has been one of the major geopolitical objectives of the Soviet Union since 1917. "The critical situation of the Unit-

ed States in the Canal Zone, produced largely by Washington policymakers, is not a mere local question between the United States and Panama. It is part of a global power struggle directly related to the security of the United States and the entire western hemisphere.

"Upon the defense of the Canal

Zone by the United States depends the fate of the canal. Upon the fate of the canal depend the safety of world sea-lanes and the fate of the entire Caribbean-Gulf area. On these factors depends the survival of the United States as a free and independent nation and the safety and welfare of the American continents." Negotiations for a new treaty

have been going off and on now for about 12 years. But are they really negotiations? How much give and take has there been on both sides? "From the very beginning these

negotiations have lacked the central feature of negotiation, namely a quid-pro-quo, give-and-take rela-tionship. When I had an opportunity in 1967 to discuss with Ambassador Joseph Farland, our ambassador who began the negotiations with Panama in 1965, I asked him, 'Joe, when you began these negotiations to give the canal back to Panama, did vou ask the Panamanians to give us any-

thing in return?' "'His answer was, 'No, I don't think so...Oh, yes, I did ask them to give us an additional 55-foot frontage of land adjoining the embassy residence [in Panama City] for a parking lot.'

'Did you get it?' I asked him. 'No, I did not,

"Now, the idea of exchanging the Panama Canal for a 55-foot frontage of parking lot is a ridiculous com parison, but through the years the U.S. has made no other demands upon Panama in these so-called negotiations except to ask the Panamanians to abandon their tan-trums and quit rioting against the U.S. This is the only benefit we would derive from the giveaway.policy.'

### **Potential Calamity**

Our leaders, it seems, have no conception of the potentially calamitous consequences of their to-tally uncalled-for territorial giveaway. When the State Department shows it is willing to give up a por-tion of America's God-given birthright — a vital sea gate that insures the nation's security and economic well-being (see Genesis 22:17) --- for a parking lot and a bunch of empty promises, then something is wrong at the top levels of government.

ESCAPE — Church member Eldad Opio and his family — from left, Mr. Opio, daughters Sarah and Owor, Mr. Opio's cousin, son Tezerah and Mrs. Opio — fled from Uganda to Kenya March 6. Member flees Ugandan terrors

NAIROBI, Kenya - Church member Eldad Opio, along with his wife, three children and a young cousin, escaped from Uganda — and the reported bloodbath spawned by dictator Idi

Amin — into Kenya last month. Mr. Opio wrote the following account after taking up temporary residence in this country. Immediately after Passover and

the first day of Unleavened Bread, feeling relieved and safe and being together with other brethren for the first time, together with a minister of the Church, Mr. Owen Willis, I felt I should write about my safe escapé from Uganda into Kenya, to add to the joy of those whose

unceasing prayers for us were and are being answered before us. I got in contact with God's Work in late 1966, and as a result

two of us in Uganda were baptized on the 29th of September, 1970, by Mr. Richard Frankel and Mr. Martin Watson during their African tour. We have continued due to your prayers to receive *The Plain Truth* and *Good News* magazines, booklets, articles, Correspondence Course lessons and co-worker letters safely, even if sometimes opened by the authorities

Being in much difficulty, we have been quiet, unheard, as if not living, cut off from other scattered

members, yet one and sharing spiritually all things with you all.

After the death of Archbish-op Janani Luwum, and after the escape and fleeing of the country by my brother, Jonah Okoth, an Anglican bishop, I felt my life and the life of my family were in danger. So on the 6th of March, 1977, after getting proper information of the killings and the movements of soldiers and studying the situation, I and my wife took a quick and ac-tive decision to leave the country,

leaving all belongings. We left during night because during day there was fear of being seen and shot by the patrolling soldiers, going by foot for about 20 miles, resting at times for the sake of my wife, who is pregnant, and the children. I hired three men who know the paths to help carry the children: Tezerah, 5, Sarah, 31/2, Owor, 2, and an orphan, the son of my late uncle.

We were helped by moonlight to see the way through very bushy paths and forests and to cross riv ers, streams and swampy, muddy places.

On the morning of the 7th of March we reached a major local road and got a taxi car to Kisumu Town in Kenya. After leaving my family with a friend whom we met in Kisumu, who gave us his kitchen to live in, I left for Nairobi to report to the authorities.

By Stephen Brown FARMINGTON, Mich. — Once in a while you hear stories of people who have led long, productive lives, accomplishing much, never seeming to slow down. Such is the case with Margaret S. Lancaster, a longtime member of the Detroit West church.

Still teaching at 96

At 96 Mrs. Lancaster still does what she does best: She teaches private speech classes. The former Margaret Slifer was born in 1881 on a farm in Illinois, the oldest of four children and the apple of her father's eye. She was an enter-

of her father's eye. She was an enter-tainer and teacher from the word go, starting at age 5. Young Maggie took private "expression" lessons and at her father's encouragement was up early in the morning memorizing her readings. When Margaret graduated from

Bunker Hill Academy in Bunker Hill, Ill., she already had a class of pupils, plus a few private students, setting the pace for an active

life. She attended Marion (Ind.) College, giving lessons in all phases of entertainment to help pay her way through school.

She graduated as an outstanding student (and later took postgraduate courses) in oratory in 1903.

### **Private Teacher**

Since then Mrs. Lancaster has been a private speech teacher, working in private specific tachet, work-ing in private and public schools, di-recting plays, holding speech con-tests, giving recitals, conducting programs for crowds as large as 10,000 people.

She has committed to memory more than 100 readings, some lasting 45 minutes. Whenever possible Mrs. Lancaster has given her readings in costume and often with accompaniment.

On Aug. 1, 1905, Miss Margaret Slifer held a recital in her studio in Alton, Ill., for several of her former pupils. Immediately afterward, in the same studio, she married her child-hood sweetheart, William F. "Football Willie'' Lancaster. She re-members Willie as a "blue-eyed man with a beautiful singing voice

then 5, moved to Carrizo Springs, Tex., staving there for six years. It was then that the Lancasters began a "hamper business," sending fresh vegetables in bushel hampers through the mail to people who an-

swered their newspaper ads. She also sold real estate and gave her lessons and programs all over Texas, she says. In 1945, after William retired, he

and Margaret moved here to be near their son and his family. She set up another studio, teaching hundreds of children and adults in this area. She presented programs all over the De-troit area, holding recitals, contests, plays and poetry readings, as well as renting rooms and costumes.

### Interest via Correspondence

Mrs. Lancaster became interested in the Church via the Correspon-dence Course in 1958 and was first contacted by Ken Graham, now a local elder at Detroit West, in 1961. Mrs. Lancaster's first visit from a minister was by Art Mokarow in 1963. That same year she attended the first Detroit church service, and ever since has been a member.

After 63 years of marriage her husband died, in 1968, at the age of 90

Mrs. Lancaster still gives private lessons in her home, and many of her former pupils stop in on occasion to see her and tell her of their success and how her lessons have helped them.

AKRON, Ohio — The first Church campaigns here were March 16 and 17, as Norman Smith, evangelist and Northwest Area coordinator, con-ducted the two-night event. An audience of 320 heard Mr. Smith

speak about prophecy-fulfilling events of today, the World Tomorrow and God's plan as outlined by the and God's Holy Days.

Refreshments rounded out the evecommented that he was pleased with the response to the campaigns.

Twelve women here cooked up a chill feed attended by 300 persons in the church's downtown hall March 19. The women, most of whom are widdows or wives whose husbands are not members, raised \$165.50, which was donated to the Work.

The chili supper also featured a tal-ent show put on by young people in the 5- to 12-year-old age-group, a square dance, a cakewalk and a kiddie

The church's Brownie Scouts held an unleavened bake sale and a book sale to raise funds for the church li-brary. Charlotte I. Hensley and Bill Meyer.

Mr. Elliott, 54, who retired be-cause of health problems, ended a 27-year career of service to the Church and Ambassador College (*The Worldwide News*, Jan. 3).

Baptized by the first student ban tizing team from Ambassador in the late 1940s, Mr. Elliott was invited here by Herbert W. Armstrong and hired as a math instructor beginning with the fall semester of 1949. Within "two or three months" Mr. Armstrong appointed him to head a small buildings-and-grounds staff.

With an engineering background with Gulf Oil Corp., he soon became supervisor of the college's physical plant.

In 1951 he was named dean of men and two years later dean of students He served in these capacities for a total of 17 years.

### **Helped Create Clubs**

Mr. Elliott also was instrumental in organizing Ambassador and Spokesman clubs.

"With Mr. Armstrong's permis-sion and guidance," he said, "I or-ganized the original Ambassador clubs," and, assisted by David Jon clubs," Hill and Paul Kroll, compiled the first club manual.

Mr. Elliott, who has written "numerous articles" for *The Plain Truth* and *The Good News* over the years, holds several college degrees: a bachelor's in mechanical engineering from the University of Texas, a master's in the same field from the University of Southern California

Ann's father, John, 33. Mr. Kesler, a member of the church here, was pulling into his driveway March 2 when Ann ran to meet him.

"I waved her away from the car," Mr. Kesler said, "and, thinking she had moved back, I drove on toward

the garage." Mr. Kesler didn't realize his daughter had grabbed the handle of the right back door of his Mercury station wagon.

"As the car moved she fell to the pavement, her left foot and ankle moving into the way of the right rear tire, which then ran over them," he stated.

The accident was witnessed by Ann's brothers and sister, Paul, 9,

Ruth, 7, and Mark, 5. Mr. Kesler "heard the other kids screaming what had happened," so he "ran to the back of the car and picked Ann up" and carried her "into the house and took off her shoe and sock," he said. "There were welts on her foot

across the front of the ankle, but no other damage. And, believe it or not,

His interests and hobbies are so varied that "one interferes with the other." He likes to go hunting in Utah; he paints with oils; he's a re-pairman; he's an inventor. He once built a portable doghouse that can be assembled or taken apart in a minute. His interest in quail prompted him to come up with an automatic, "self-sufficient" cage that operates without maintenance except for cleaning every other week.

"If there is some need I enjoy working out a design myself rather than having someone else do it for " he says.

Mr. Elliott and his wife, Ann, recently celebrated 30 years of mar-riage. Their three sons are married. The oldest, Stephen, is supervisor of the Church's Summer Educational Program grounds in Orr, Minn.; Mark works for a diesel-repair com pany in Tucson, Ariz.; John is a local elder in Abbotsford, B.C. Two grandchildren "were born on the same day, only one year apart.'

Mrs. Elliott was active with the Ambassador International Cultural Foundation for two years and was hostess of the Auditorium and a trustee of the Pasadena Historical Society.

Mr. Elliott spent his last 17 years in Pasadena as an official of the annual Tournament of Roses Parade The Pasadena Rotary Club, Pasadena Central Improvement Association (of which he was president and vice president) and Pasadena Today Association all carried his name on their membership rolls.

### **College Master Plan**

Mr. Elliott assisted Mr. Armstrong in overseeing the construction of the Auditorium, which was part of the college's master plan, much of which was supervised by Mr. Elliott. ich of

Once the Auditorium and master plan were completed, he was named managing director of the building. While in this post Mr. Elliott met "several notable and distinguished performers," many of whom have become close friends.

After a visit to Texas Mr. Elliott who serves as a member of Ambassador's board of trustees, decided to settle in Longview after his retirement and begin contracting and building houses.

Jack Elliott wants to do productive, worthwhile things and feels life must be productive to be interesting. must be productive to be interesting. "When a job no longer is productive, I want to move on," he says. He had "come to an unproductive period of maintaining a building" that he had helped create, and "maintenance just isn't my field." As a result — and also to improve

his health - he and his wife relocated here.

cated here. "'My heart is always in this Work," Mr. Elliott says, "and I ex-pect to be supportive of it wherever I am, through whatever I can do. Any-thing I can do I want to do, and I'm hoping in the future there will be something . . . that I'll be called on to do. "The opportunity to be in this or-

ganization, especially since it is God's Work, is one of the greatest opportunities that could befall anyone, and I feel the experiences are invaluable."

Who can say? How many forms are there in life?

Helen Watts, a member of the Pop-lar Bluff, Mo., congregation, has developed a form that may not be entirely new, but at least it's ex-tremely rare. It may even be chal-lenged as ant by those who work with other media but Mer. Watte meric

other media, but Mrs. Watts main-

tains that it is art indeed. The Missourian has been making

novelty jewelry of Plexiglas (acrylic plastic in sheet form) since 1948,

carving designs similar to the blown-in-glass articles in vogue

more than 50 years ago. The Plexiglas jewelry is, for the

most part, small and delicate, and the

designs actually are engraved upside down and backwards, using small

electric drills (unlike any other drill) and dyed inside the Plexiglas.

The designs first are engraved on either side of a piece of the plastic.

This in itself is an art, for most of the

designs are small, delicate flowers. And, to give the impression of depth,

forms can art take?

an engraving must be as precise as miniature sculpture.

The formal name of this art form is "internal hand carving," says Mrs. Watts

Plexiglas is of a texture that makes it impossible to engrave with a knife. Mrs. Watts manages it with a small, high-speed drill and a special pin-pointed bit as another artist might use a pencil or brush. The artistry does not end there, for the flowers or other etchings must be colored, and in many designs more than one color must be used.

The engraving next is filled with dyes, injected with hypodermic needles and evedroppers. So delicate is the engraving that two colors cannot be permitted to touch each other, but they must come so close that to the naked eye they appear to run to-gether. This process requires consid-erable time for the dyes to dry, then a backing of thin, colored Plexiglas (white, black, red or green, for example) is fused onto the engraved piece. When this becomes solid, the entire piece is shaped on a small electric sander and polished with an elec-

tric buffer. The shaped object is now as one piece, with the design en-graved and dyed inside.

The Plexiglas pieces are made into necklaces, earrings, cuff links, bracelets, brooches and pins.

Mrs. Watts also makes heavier objects such as paperweights, desk pen

jects such as paperweights, desk pen sets and other ornamental pieces, but her specialty is jewelry. So amazed at Mrs. Watts' fantastic handiwork are onlookers that, after seeing it, they exclaim, "How in the world do you press those little flowers in there?"

Mrs. Watts' training in art con-sisted of a year in high school before she began working with Plexiglas 28 years ago as a hobby. This was in Alton, Ill., and within three months the hobby had become a business. About 23 years ago the Watts fam-

ily moved near this quiet Missouri community of 300 people.

In 1976 Mrs. Watts took a student partner, Margaret Franz, who continues to make the jewelry and carry on a small business in Annapolis. Mrs. Franz is also a member of the Poplar Bluff church.

carry the GREAT COMMISSION to all the world - with a vitality, energy, drive and power more dynamically than one man in hundreds HALF my calendar age could do - and let me say here that by far my GREATEST work still lies ahead of me. But of course I do not want to be younger than my lovely, competent and able young wife, so since she is 38 going on 39 I have changed my REAL age to 39 going on 38 — which is much more REAL than the MISleading calendar age

On this recent African tour, we flew from Rome to Johannesburg, arriving after hours of tiresome flight 1:10 a.m. on the morning of Thursday, March 10. After driving into the city, awaiting the arrival of luggage which followed us to the el, it was precisely 3 o'clock on my bedside clock as I reached over to turn out the light and go to sleep. To prove Bob *believed* I am still

under 40, he had scheduled that I drive from Johannesburg to the national capital city, Pretoria, to address the local Rotary Club at 1 o'clock noon luncheor

I address many Rotary clubs. Of course there are many other businessmen's luncheon clubs in major cities all over the world - and I think I have spoken more times than I can remember at all of them - such as the Lions Club, the Kiwanis, the Jaycees and many others. The Rotary is different in that it accepts in mem-bership only one man in each profession, business, industry or category. But usually the Rotarian is the LEADING and most prominent man in his field. Rotarians, therefore, are usually top leaders in their community, as also are members of other luncheon clubs.

Well, my South African trip was off to a fast start, giving me only a few hours' sleep after a tiresome eight- or nine-hour flight. Most of that time in flight was spent writing articles.

**Mayor Requests Autograph** Then, from the Rotary luncheon we had a meeting with the mayor of

going out at the airport! For Mr. Armstrong, having his aircraft land close to the city provides enormous convenience, else he would not be able to keep up the tough schedule of meeting all his appointments. Using commercial air-craft with Mr. Armstrong's commitments in this part of the world would bog him down to a snail's pace.

That evening we sat in the main conference hall of the Turnhalle (gymnasium), which has been beautifully refurbished to accommodate the delegates to Namibia's constitutional conference.

### Independence by '78

Mr. Armstrong was addressing a specially convened after-hours meeting of the 11 ethnic-group delegates who have been meeting since September, 1975, to draft a constitution and form an interim government that will lead the one million residents to independence from the Republic of South Africa by the end of 1978.

To listen to Mr. Armstrong ex-plain to this embryonic government how the Eternal will one day set up His government on this earth after ages of man's rebellion against God and man's efforts, which could one day destroy all human life, was an

incredibly stirring experience. Mr. Armstrong was the first per-son from outside Namibia ever to have addressed the Turnhalle How did it happen for such a door

to open? Among the delegates that Monday

high was Dr. Ben Africa, leader of the Baster Delegation. He had writ-ten the short article "An Appeal to Prayer and Reason" in the international edition of The Plain Truth last November that accompanied an arti-cle on Namibia by Herman L. Hoeh.

Dr. Africa received worldwide re sponse to his article from PT readers. An article about the Turnhalle a

month earlier was also circulated among leaders in Namibia. The leaders commented on Dr. Hoeh's objective statement of facts.

Some of the Turnhalle delegates had

already met with Mr. Armstrong during a luncheon when he visited Windhoek in June last year. The Plain Truth magazine was, therefore, not unknown to them.

### AICF Assistance

I traveled from Johannesburg to present to the Windhoek Rotary Club a \$1,000 check from the Ambassador International Cultural Foundation in support of their nutritional scheme for destitute, aged and other needy people. I invited Dr. Africa to lunch during my visit to Windhoek this last January. During lunch I asked him, What would you think about Mr. Armstrong addressing the Turnhalle?'

Without hesitance he expressed his enthusiasm.

An hour and a half later I had a meeting with the secretary to the conference, Billy Marais, having been introduced by Dr. Africa. Mr. Marais was particularly interested when he saw Mr. Armstrong's curriculum vitae and the brochure Herbert W. Armstrong, Ambassador for World Peace. He also felt strongly that Mr. Armstrong could contribute something to the Turnhalle delegates.

I supported that wholeheartedly, explaining that Mr. Armstrong has a unique way of describing human na-ture and the philosophies of "give" and "get." It just seemed to fit in at the right time, I found out later, because the delegates had to adjourn much earlier than usual that afternoon after reaching a moot point on some issue of interim government. I left the Turnhalle building some-

time later, having been assured that Mr. Armstrong could address the delegates. I could not believe it! No one d ever addressed this governmentto-be from outside the country.

I made the invitation known to Mrs. Joey Schoeman immediately. The Schoemans are influential business people in Namibia. She is also a trustee of the South Africa Foundation (SAF) in Windhoek. The SAF, through its president, Dr. Jan Marais, has been instrumental in ar-ranging meetings for Mr. Armstrong with leaders in South Africa

the City of Pretoria, Dr. J. Greyvensteyn. I was amazed to see him, as I was introduced (2:45 p.m.), holding in his hand an old copy of The Plain Truth - one from the tabloid-format days - with my editorial on how I keep young and fit and driving on in my calendar 80s.

I knew when I wrote that article that some sourpuss critics would say: "Mr. Armstrong is just bragging. Why doesn't he preach the Gospel instead of talking about himself? don't remember any such letters, but there must have been a couple or so Well, let me explain that right here. It is a FACT that most men allow themselves to GROW OLD before their time. After all, WHAT IS the Gospel Jesus preached? It was the GOOD-NEWS ANNOUNCEMENT of the coming KINGDOM OF GOD. It is the restoration of the GOVERNMENT OF GOD to bring this earth PEACE HAPPINESS, ABUNDANT WELL-BEING It is a WAY OF LIFE that will prevent aging before our time - that will teach right ways of LIVING, to keep ourselves active, with vitality, drive, zeal, ACCOMPLISHMENT. I have always tried, though not perfectly, to SET AN EXAMPLE for the Church and the world in GOD'S WAY OF LIFE.

What has CAUSED all the unhappiness, discontent, misery, poverty, pain and suffering and death in this unhappy world of Satan? Simply WRONG WAYS OF LIVING. Did the Apostle Paul, inspired by

the Holy Spirit in writing MUCH of the Bible — the VERY WORK OF GOD - ever write ABOUT HIMSELF? In the first two chapters of his letter to the Galatians alone, Paul uses the personal pronoun I more than 40 times and this was inspired of gop!

In any event, this highly rated mayor said he had gotten so much HELP from that editorial on living GOD's way he had preserved it and asked if I would autograph it for him. Then he pulled out a copy of the booklet on the PLAIN TRUTH ABOUT CHRISTMAS and asked if I would au-tograph that too. Then a plain piece of paper to autograph for one of his children.

After this delightful and profitable meeting with the mayor, we went back to Johannesburg that night. Well, that was a starter for a

visit of about 31/2 weeks that included Johannesburg, Pretoria, Cape Town and two other adjoining countries

### AICF Visit

The next day, Friday, was not so hectic. We lunched with Jennifer and Owen Williams at Ellis Park. This was really an AICF visit. Owen is the leading tennis promoter in South Af-rica, and together with Arthur Ashe is president of the Black Tennis Federation. Possibility of AICF help for their foundation is being considered to assist promising and under-privileged to develop and enjoy tennis. Following our business confer-ence and luncheon, we were privileged to watch Bjorn Borg of Sweden, one of the four or five highest-ranking professionals in the world, defeat Frew McMillan. Although for many years tennis was my favorite sport, I seldom get to see tennis any more. Sabbath, March 12, I preached at

the combined church service in Johannesburg at Deutsche Schule. Robert E. Fahey emceed, Mr. Stanley Rader gave a comparison of Joseph's life with this Work today. I spoke on "Just What Is Real Conversion?" Dinner with some brethren that evening. Sunday, March 13: I had a free day

for catching up on writing of articles, co-worker letters, etc. Mr. Rader went to a tennis luncheon to meet Judge Blen Franklin, president of the

South African Tennis Federation That evening Mrs. Rader, who had not accompanied us until this evening, arrived from New York.

### The Outstanding Event

Monday, March 14: On this evening occurred probably the outstanding event of the entire trip — actually an event of two or three lifetimes, and so far as I know without precedent. South-West Africa is planning to become a new national govern ment, and representatives of 22 factions, parties, with different reli-gions, different colors — multiracial, etc - were in session at Turnhalle

We took off the Johannesburg runway at 11 a.m., arriving at Wind-hoek, S.W.A./Namibia, at 12:30. Other details, of being met at the airport and various meetings through the afternoon, were printed in the earlier diary of our South Africa trip. But the opportunity to speak to representatives drafting the constitution for a new nation in the world in their official hall was an opportunity of a lifetime. We met with them in formal ses-

sion at 6:30 p.m. Mr. Rader intro-duced me. He had noted that these framers of a new national constitution had been criticized for the length of time they were taking. Mr. Rader mentioned that, while in our U.S.A. the Declaration of Independence was signed July 4, 1776 — we have just last year celebrated our bicente ial - yet it took our founding fathers THIRTEEN years after that to draft the U.S.A. Constitution amid much controversy, disagreement and delay. He encouraged them not to be discouraged, and congratulated them on their progress. I had never spoken before this type

of group before, and I felt really in-spired of God. I spoke more as an elder statesman - one who knew personally perhaps more heads of state in all parts of the world than any other man — and I spoke boldly, though very calmly, as the direct personal representative of the GREAT GOD, Creator of all races of men that dwell on the earth. I told them that the governments of nations are now being overthrown at the rate of one a month - of how many kings, emperors, presidents and prime ministers I had known that have in the past three years been removed by assassination, losing elections or resigning from office in disgrace. I told them that there are, basically, just two ways or philosophies of life — the way of ''GET'' and the way of way of "GET" and "GIVE," or "LOVE."

I told them of the creation of the first man and woman on earth from whom all races, people and nations have sprung - and how our first parents REJECTED the Government of their Creator — a Government based on the way of LOVE — obedience to our Creator and outgoing concern for the good and welfare of any and all other humans, regardless of race, color or creed. That after our first parents REJECTED God's GOVERN MENT over them, and HIS WAY of "LOVE," mankind has always since pursued THE WAY of "GET" — the way of vanity, lust and greed, jealousy and envy, competition leading to strife, violence and war - the way of resentment against and rebellion against the WAY OF GOD And how GOD'S WAY is the ONLY way that can bring us PEACE, HAPPINESS and universal well-being

### 'Founding a New Nation'

"You representatives are founding a new nation in the midst of a world all of whose nations, even with their many different forms of human GOVERNMENT, are based on the way of 'GET' - competition, strife, violence.

I told them, on the AUTHORITY of the living GOD OF THE ENTIRE EARTH, that insofar as they framed a constitution based on the "GIVE" principle, with fairness and justice to ALL, regardless of race, color or creed (for their new country will be multiracial multicolored -- mul. tireligious) to that extent I am authorized by the GREAT CREATOR OF ALL, whose eyes are on WHAT THEY ARE DOING, to say that they will receive blessings from Him — and to whatever extent they frame a constitution based on "GET" — on injus-tice, favoritism, concern for the few and unconcern for the many — they will bring curses on themselves and their neonles.

I told them that if they frame a constitution based as nearly as possible on the GOVERNMENT OF GOD they will be specially blessed by the GREAT CREATOR — but they will find they are like a nation of lambs among all other nations of worves cautioned them it will be difficult to frame such a constitution, when nations are interdependent on one another, and they must deal with their neighbor nations. Nevertheless, advised them, as a father to his children, to do their very best and they will be rewarded.

I am sure that nothing like that has been heard before such a lawmaking assembly, but God gave me the opportunity to deliver that Message, and I did. But I ended by saying the nuclear-armed nations are bringing this world to the place where THIS GENERATION — unless the Al-mighty God steps in, intervenes and establishes by supernatural FORCE His Government of PEACE and GOODWILL, that all humanity will be blasted off this earth before the end of the present living generation. "The new nation you are founding

is destined, by the MISrule of the na-tions of the world, to be short-lived. Therefore make it the nearest like the GOVERNMENT OF THE ETERNAL GOD you possibly can."

### **Delegates Sobered**

Those delegates, you may be sure, were soBERED! To what extent they BELIEVED, I cannot say. Our first parents did not BELIEVE what their very Creator said in person to them. Jesus Christ proclaimed the same Message of GOD'S GOVERN-MENT (the KINGDOM OF GOD) to many THOUSANDS — IN PERSON — yet only 120 believed what He said!

But whether they believe or not is NOT MY RESPONSIBILITY. God wants them TOLD. He has opened the doors, and I am TELLING THEM. From there on it is THEIR responsibility.

A week later we visited the newest nation on earth - Transkei. There I said very much the same thing. I already knew the new prime minister. He had flown to Johannesburg for a conference with me last June, before his country gained its independence as a NEW NATION.

He had assembled to hear me his entire cabinet, the entire parliament and many VIP private citizens.

God is giving me opportunities like this, and with it both the wisdom to know what to say and the power to say it

As Mr. Rader said to me after the first Rotary Club speech: "They sat there absolutely STUNNED at what you said."

We spent another hour and a half with the president of the Republic of South Africa. There were many other important meetings and speeches. They have been published in The Worldwide News.

At this moment I am very with fatigue and will break off here. saying that I feel this South African trip was the most successful yet. GOD IS ON HIS THRONE - He is GUIDING this Work. It is like feeling a dynamic SENSATION to realize how God is leading me, strengthening me, giving me more and more wisdom and POWER tO GET HIS JOB DONE.

Armstrong's worldwide ministry, it Armstrong's worldwide ministry, it is necessary to attend and speak at many banquets, special dinners and social occasions, where wives at-tend. Mr. Stanley R. Rader, his chief assistant and adviser, for example, is assistant and adviser, for example, is usually accompanied by his charm-ing wife, who acts as his hostess at such occasions. Mr. Armstrong has tried to fill this need by taking along his elder daughter as hostess, but the rigors of travel have been too much for her to go along much more than half the time.

Private Ceremony

The wedding took place April 17

The ceremony was simple and in-formal, with no music or formal at-tendants. After the guests were seated, Garner Ted Armstrong entered with his father. Mrs. Martin then entered with Mr.

Rader, who gave the bride away.

'Nervous Enough'

Garner Ted Armstrong began with informal remarks, saying, "This is a unique occasion, if not in all of history, at least in the history of this Work, for a son to perform the wed-ding of his own father." He told those present not to be "nervous, be-cause I am nervous enough for all of von." you.

He then read through the standard wedding ceremony, commenting be-fore beginning that he was going to

use the same wording written by "this man who designed this cere-mony from the Word of God when he was first called into God's Work when I was yet a little boy up in Oregon."

A brief reception followed at which cake and champagne were served.

Mr. Armstrong said he didn't plan to go anywhere for a honeymoon. He said a trip to an exotic spot was not nearly as special to him as having a chance to spend a few quiet days in his Spanish-style home in the foot-hills of the Catalina Mountains of northeast Tucson.

## A Personal Letter

### (Continued from page 1) We decided to have the wedding here.

How It Started

But how did it all start? I think Mr. Robinson gathered most of the facts about how at the time of the big Manila campaign some three years ago we needed several thousand copies of *The Plain Truth* AT ONCE for the campaign. Mr. Robinson, I am sure, has given the details of how Mr. Rader telephoned his hostessassistant, Ramona Martin, in Pasadena to bring this huge bundle of *Plain Truths* as extra baggage and come with them to Manila on the first plane. At this point I want to quote from a

At this point I want to quote from a memorandum I wrote for my own personal record entitled "HOW DO I KNOW God chose and SENT RAMONA TO ME?"

After the death of Loma, the wife of my youth (our marriage was terminated by death 10 years ago after 50 happily married years), some weeks later I gave serious consideration to the matter of marrying again. My wife had said that if she died she felt I ought to marry again. She knew I needed a wife by my side in carrying out the GREAT COMMISSION God had committed to me. But certainly no one could ever take her place as "first lady" of God's Church. I decided at that time against ever remarrying and publicly announced it. I put marriage out of my mind COMPLETELY.

### New Phase of Work

Meanwhile God had opened thisNEW PHASE of the Work providentially, opening doors to kings, emperors, presidents, prime ministers and those high in governments of nations all over the world. He had actually given me a most friendly and even affectionate relationship with them — opening doors for Christ's Gospel message to be carried where doors had been closed to that message. This new phase of the Work made necessary extensive worldwide travel my wife could not have endured. She was allergic to flying, and, since I now must be away from home about three quarters of the time (actually 300 of the 365 days of the past two years), I could never have started this new and most important phase of the Work had she lived for I would never have left her at home alone. God says a husband must ''cleave to' his wife — be together as if GLUED together.

bisit cleave to miswite - to twgether as if GLUED together. But this NEW phase also brought the necessity of a wife or hostess to help in that capacity at dinners and banquets and many social occasions in world capitals where wives of those high in the government attend. I usually speak, often up to 45 minutes, before such distinguished people.

As you know, Mr. Stanley R. Rader, chief legal counsel for the Work, now vice president for financial affairs for the Worldwide Church of God and my chief personal adviser, accompanies me on these important trips. As hostess Mrs. Rader accompanies her husband as part of our traveling team. I had no option but to take my elder daughter, Beverly Armstrong Gott, as my hostess. But a daughter cannot take the place of a wife in personal companionship.

My son, Garner Ted, was well aware of the loneliness and the need. He said some two years ago: "Dad, if you'll be patient and wAIT ON GOD He will choose and SEND TO YOU the one He will choose for a wife to be at your side — one who can withstand the rigors of this almost torturing worldwide travel."

Actually, God already had sent her. But often we do not recognize the hand of God — and He does work in mysterious ways. His wonders to perform.

### Part of Traveling Team

Actually, at the time Ramona Martin arrived in Manila with the large bundles of *Plain Truths* for the campaign, 1 scarcely knew her. She had been in the Church 12 years or more and on campus almost at slong. But J had never had a single conversation with her. I'm not sure I even realized she had arrived in Manila. Mr. Rader had been using her as an assistant and secretary in various capacities as one of the most capable women in the Church. At the time of her call to rush to Manila, she had been hostess in Pasadena, meeting VIPs at the airport — usually those in high places we had met in their countries and invited to visit Pasadena. Ramona met them at the airport, saw that they were properly accommodated at a hotel, escorted them over the campus, etc. After her arrival in Manila Mr. Rade recided to keep her on as one of our traveling team, assisting him as he assisted me in this most important phase of the Work.

I'm not sure now when I first really noticed her. Generally, when there was no scheduled event, our traveling team all ate together for evening dinner and often also at lunch. But with Ramona's charm and beautiful personality she soon caught my eye. We began to get better acquainted, often sitting together at dinner. My first date alone with her was July 4, 1974, in Paris. We lunched together in the beautiful courtyard outdoor luncheon room of the Hotel Prince de Galle about 1½ blocks from our hotel. I would like to stop here and consider the circumstances. We were traveling to all parts of the world — Asia Europe Africe Cont

traveling to all parts of the world — Asia, Europe, Africa, South America. We were away from Pasadena about three fourths of the time. When Garner Ted said God would *send* to me the right one to be my wife in this new phase of the Work, I assume he had in mind that such a woman would be one of distinguished appearance, distinguished family and background, sophisticated and of the socially elite. Ramona has been required to support a growing son and her mother, beside herself. The principal difference between a "distinguished-appearing" woman of high culture and a woman like Ramona is nrimarily two thiose

Worman or mgr. current university workings — being of a wealthy family and therefore smartly and expensively groomed and having acquired much of THIS WORLD's sophistication, and what my wife Loma would have called "put-on" sophistication and social culture. No. 1, there is no such woman in God's Church, No. 2, God forbids me to be unequally yoked together with an unbeliever. No. 3, I would have nothing in common with such a woman angway. When God chose me as His apostle, and laid on me His GREAT comMsson, He did not choose from the wealthy, socially elite of this world. Ramona comes from the same kind of substantial, down-to-earth, humble, God-fearing stock that I do. Anyway, as I got to know her I became aware of her un-usual talents, abilities and competency, her inner spirit, her sincerity, the fact that she was being truly led by God's Holy Spirit.

Or course, 1 did not know that my son had any such conception of the wife God would send me, but 1 know rather that some had that idea (perhaps I exaggerated it to show the contrast — because Ramona is cer.. tainly not that type).

### **Received Most Cordially**

But when Mr. Rader, Mr. Gotoh and I were all needed for several days elsewhere, and one had to go immediately to Nairobi, Kenya, in central eastern Africa, Mr. Rader picked Ramona as the one for the job. She flew alone to Nairobi and made the necessary prearrangements for my big campaign there. Later she went alone to Tokyo and made all the advance arrangements for our visit and banquets there, and repeatedly she has been received most cordially by the wives of government heads. In other words, she has all the qualifications the wife of Herbert W. Armstrong needs to help him FINISH THE STAGGERING RESPONSIBILITY THAT GOD HAS LAID ON HIM.

There is no doult whatsoever in my mind that God providentially chose Ramona — serv her to me in a manner I had nothing to do with, caused us to grow in love, and now has MADE US ONE, and she will henceforth for the remainder of our lives be at my side as my personal HELP, companion, wife and God's servant. My wife of 50 years knew her and thought very highly of her. My daughter Beverly has traveled with us on a number of trips which included Ramona, and they are like two sisters. My whole family love her and my son, Garner Ted, performed the marriage ceremony that united us as ONE!

I thank God very deeply and sincerely. God is still on His throne and HIS WORK GOES ON — IN HIS POWER — and WITH HIS BLESSING!

Many Worldwide News readers have been deluged with hate mail, religious tracts, chain letters, business offers and advertisements since placing their addresses in the person-

10

To help eliminate this abuse, Garner Ted Armstrong has asked the WN Circulation Department to de-velop an additional reader service to reduce the amount of surprise mail me readers are receiving. Here's how it works:

### **Placing Personals**

When you send in a personal, the Circulation Department will assign you an alphanumeric mailing code. Instead of your address appearing in the paper, the code will be printed after your name. The WN will forward all responses, other than commercial, proselyting, pornographic or obscene material or chain letters, or others than the WN feels would be offensive to its readers and not in keeping with the original spirit and intent of their personals, and the same will be disposed of. After the initial contact, of course, you will be able to write directly to your correspondents.

By requesting the publication of your personal, you thereby consent to this mail-opening-and-disposition

policy. This service will be optional, and if you wish to take advantage of it you must specifically state that you do wish your address to appear in print

This system will not apply to per-sonals in the "Special Requests" and "Follow-Up" sections, because of the urgent nature of many of those

personals and the delay that would result from the remailing service. **Answering Personals** 

To answer a personal that includes the WN-assigned mailing code, send your response directly to *The Worldwide News*. You must include a mailing label, because we plan to offer this forwarding service only to WN subscribers, and the inclusion of your label will provide us with immediate verification that you are a

subscriber. (If you run out of WN labels, please indicate such and en-close your subscription number from a Plain Truth label)

The Circulation Department asks that your responses to personals be in the form of cards or brief letters en-closed in envelopes. This will make opening the mail, bundling it and forwarding it to you much easier.

**TO ANSWER** A PERSONAL

Simply address your letter to: Personals, The Worldwide News, Box 111, Big Sandy, Tex., 75755, U.S.A. In the lower left-hand corner print plainly the WN-assigned mailing code that appeared in the ad you're answering.

Be sure to include a WN mailing label with your response, because we are only offering this service to WN subscribers. If you are a subscriber but have run out of WN labels, please include the subscription number from your PT label.

When answering a personal, do not include on the outside of the envelope the name of the person you are writing. Your letter must be addressed directly to the WN, and the mailing code must be in the lower left-hand corner. Shown below is the correct way to address your envelope.

12345

stamp. Non-U.S. readers need not include stamps.

To answer a personal, just place the person's WN-assigned code in the lower left-hand corner of your en-velope (see illustration, this page). Do not place his or her name on the outside of the envelope. Address your envelope to: Personals, *The Worldwide News*, Box 111, Big

To help defray the costs of remail-ing, the WN asks that those who can afford it enclose a U.S. postage

mailing code in the lower left-hand corner will read: "Attn.: A000" (substituting the appropriate code for "A000"). Using this system, the "A000"). Using this system, the WN cannot process any envelope that is not addressed directly to it. (In other words, do not address the letter to; "John Doe, in care of *The Worldwide News*"; write directly to the WA without placing the person's the WN without placing the person's name on the envelope.) More information about the new

system appears in boxes elsewhere on this page.

### **TO PLACE** A PERSONAL

There is basically no change in the way ads are placed. We will simply replace your address with a mailing code unless you specifically request that your address be printed.

(The "Special Requests" and "Follow-Up" sections will remain unchanged and may include addresses because of the urgent nature of many of those personals.)

Please remember to include a current WN mailing label in your letter so we can promptly forward any responses.

Send your personal to: Personals, The Worldwide News, Box 111, Big Sandy, Tex., 75755, U.S.A. Your ad must follow the other guidelines given in the "Policy on Personals" box that frequently appears in the WN. We cannot print your personal unless you include your mailing label.

### Hollow Legs

EXETER, England — The first so-cial evening for the church here was March 12.

Music was provided by the Rowles family, Dave Marshall and Cedric Johnson. A bee drive (there being a shortage of beetles, seemingly, in the snortage of ocettes, seemingly, in the area), encouraged by David Evans, was won by 12-year-old Mary Cann. Next came food and drinks, prepared by the ever-busy cooks, mostly mums and daughters. Hollow legs were soon filed, and musical prices and atheness.

under the direction of Dennis Rowles. The make-your-opponent-smile game was a draw between Jack Penney and David Batten. About 10 p.m. minister John Jewell

and his family departed for Dobwalls, having traveled from there to Exeter for the 10 a.m. Sabbath service, then p.m. and back for the social evening. Francis Cann.

### Interview With Bing

FAIRMONT, Minn. — Members here helped to air a personal taped interview with Bing Crosby March 20.

Mrs. Ken Churchill, who attends the church here, had won a free trip to the West Coast through her place of employment. Her husband was able to accompany her, and, on a side trip, visited the Ambassador College cam-pus in Pasadena and met Mr. Crosby. A taped interview was later aired on radio station KICD in Spencer, Iowa,

### Gluttons for Punishment

PASCO, Wash. — Gluttons for punishment, 20 adults and 13 young people from the church here took on the new Tap Teal Apartments' over-looking the Columbia River to clean them for fact time. them for first-time occupancy in early March. The effort was to restock the church treasury.

Adults and teens wound up with cal-loused knees, scraped knuckles, broken fingernails, aching backs, blisters, admiration for each other and appreciation for the tasks faced daily by homemakers. Minister Gerald Flurry had the misfortune of pushing down the button on a spray can that was pointed in the wrong direction.

Cleaning the 12 apartments netted \$260, which wasn't too bad for a fiveday effort sandwiched in between a two-day campaign by David Jon Hill, income-tax returns, the Holy Day season and seminars by Art Mokarow planned for April 10. Jan Heltne.

### 'Plain Truth' goes south

LEXINGTON, Ky. - The Plain Truth magazine is now distributed at airports in Trinidad and Barbados, announced Gerry Russell, coordinator of Plain Truth distribution for the southeastern United States. And the English and Spanish editions of the magazine may go on newsstands at the airport in Caracas, Venezuela, "which is one of South America's busiest airports, used by large num-bers of businessmen from both South America and Europe," Mr. Russell said.

said. The coordinator said the *PT's* Pasadena-based Circulation Depart-ment "believes that airport displays like these and others at Atlanta [Ga.], etc., which we already have, will be our most effective means of distribution as it disseminates the magazine over a much wider area. "We have received subscription-

request cards that were inserted in the newsstand copies from all over the U.S.A., probably from magazines picked up in airports by travelers. "With this in mind we are pres-

ently contacting the two major com-panies that control the newsstand and gift-shop concessions at virtually all of the major airports in the U.S.A., and the prospects look good that these doors will open too.

"The big problem is that we lack the finances to be able to go through these doors until the income picks up."

## PTs' cruise the Caribbean on 707s

SAN JUAN, Puerto Rico - Clarence Bass, regional director for the Work in the Caribbean, returned last month from visiting people in-terested in God's Work in Trinidad and Guyana.

and Guyana. Mr. Bass, whose main purpose was to visit Guyana, had a "pleasant surprise," he said, in Trinidad. A member of the St. Augustine, Trinidad, clurch, Charles Bhagan, had succeeded in placing *The Plain Truth* magazine aboard the 707 jet liners of British West Indian Airways

(BWIA). "It all came about," Mr. Bass said, "when Mr. Bhagan, who himself had worked for an airline caterng company at Piarco International Airport, Trinidad, asked the catering manager of BWIA if he would like copies of *The Plain Truth* on board all BWIA flights."

### Liked the Idea

The manager took a copy to show his boss. Mr. Bhagan, who also coordinates newsstand distribution of the magazine at the airport, was pleasantly surprised when the catering manager's boss liked the idea.

The airline makes about 20 flights a week to London, Toronto, New York, Miami and Georgetown, Guyana. Mr. Bhagan supplies the airline with about 200 magazines each week, which are displayed, along with Time, U.S. News & World Report and others, in the airline's in-flight libraries.

The Basses March 3 to 7 were in Georgetown, where Mr. Bass baptized six people. March 7 they went to New Amsterdam, a town 70 miles from Georgetown, on the Berbice River. Five persons were baptized

While in Matthew's Ridge Mr. Bass and Mr. Krautman visited a Carib Indian village. "In that section of Guyana there are a number of Indian villages," Mr. Bass said. "The Indians of Guyana, mostly Carib and Amerindian, generally do not amalgamate into the Afro-East Indian culture of Guyana."

Rising early the next morning they baptized Mr. and Mrs. Joaquim and Mrs. Correia. These three baptisms brought the total for the trip to 14. "In the seven years that our minis-

ters have been visiting Guyana, this is the largest number to be baptized on one visit," commented Mr. Bass. "The total number of members in Guyana is now 46.

""Certain difficulties make it im-possible to hold regular weekly Sab-bath services there. However, God has not left His people in Guyana destitute. Paul Krautman, who is En-glish and a graduate of Ambassador, visits and studies with the brethren He makes arrangements for social activities and last year conducted the Passover in his home with the ap-proval of headquarters."

**English Volunteer** 

Mr. Bass told how Mr. Krautman

came to be in Guyana. "In the late '60s and early '70s he "In the late '60's and early '70's he was an English Volunteer — similar to the American Peace Corps — to Guyana," Mr. Bass said. "His job was working in the National Library. "In 1971 he entered Ambassador

College. Upon graduation in 1975, he applied for a job with the National Library and got it. So now, at a sac-rifice in salary, he is again in Guyana. This time he is able to help many of his brethren who are citizens of the country he has grown to love It is indeed interesting how God pro-vides for His children."

Because Mr. Bass by law is not

allowed to speak to the church in a formal service, Mr. Krautman sug-gested the brethren be invited to have lunch with the Basses.

So Saturday, March 12, about 32 of the members in Guyana came to the Tower Hotel for lunch with the Basses and Mr. Krautman Mr. Bass gave them information on the growth of the Work in other parts of the Caribbean and answered many ques-tions, "biblical and secular," he aid.

Mr. and Mrs. Bass returned to San Juan, feeling the visit was the "most fruitful" they had had in Guyana.

### The WORLDWIDE NEWS

A Personal Letter from Same had another

(Continued from page 2) was a burst of applause from all there.

It was a very short, simple and private ceremony, with my father wearing a plain business suit and Ramona wearing a nice dinner dress, standing up in the family room before the fireplace to recite their wedding vous

place to recite their wedding vows. My father wanted it this way, and I very much approved and appreciated his choice in the matter. I felt it was not only a most tasteful ceremony, but, believe it or not, it turned out to be one of the most moving.

There was not an individual there who was not very deeply happy for Mr. Armstrong at his obvious joy, and most especially 1 believe they were all moved when 1 mentioned in my prayer that after 10 years of living alone my father could at last know an end to the hundreds of nights of terrible loneliness.

### Deep Bond

The deep bond between my father and me I believe was even strengthened more than ever before by the events of last Sunday, and I know that, as I told him so many years ago, so long as he and I are closely bonded together in love, mutual respect and harmony, with me continually aiding, assisting, upholding and supporting my father in his most important new phase of the Work, and his continual confidence and support in me in the day-to-day executive and administrative duties which are such a giant load on my shoulders, that we do make quite a team after all. I once had occasion to tell my father that even if God saw fit to leave us with only a briefcase, a battered, used, mechanical typewriter and the clothes on our backs, and if it took a thumb in the air to hail a passing car to get to the next place where we should preach the Gospel of Christ, that he would find me standing at his side, carrying that briefcase and typewriter, and we would be doing God's Work together.

Think I will, because of the nature of the material contained in this issue, refrain from going through a number of other items at this time and save them for the next issue, except to comment briefly on a new ''personals procedure.''

### New Service

As I mentioned last time, we have

been studying methods whereby we can eliminate some of the abuses of the personals section, and lam happy to be able at this time to announce a new service to users of the section of the paper. Though it will mean additional time and expense for our staff, i will thwart a lot of people who have exploited the good faith and integrily of many, many of God's people around the world.

The new procedures are outlined on page 10, and I won't duplicate all the details here, since it concerns principally the users of the personals and not the majority of the Church. Though it is experimental and we may need to refine the procedures, I trust it will be a help to all those concerned with the problem.

I will be very busy in the next few days with our accreditation visit on the Big Sandy campus and rushing to completion of the last materials for my book, which is scheduled to be in the hands of the publishers by May 1.

God bless all of you loyal and faithful brethren. I hope you know how much my father and I love you and depend upon you for your continued loyalty and support. I can honestly and fervently tell you it is needed more than aver

needed more than ever. Your brother in Christ, Garner Ted Armstrong

# 62 ministers to change church areas

PASADENA — Sixty-two ministers of the Church will soon pull up roots and change responsibilities, announced Ronald Dart, director of pastoral administration, April 21. Mr. Dart said 31 U.S. pastors will transfer to other congregations, 15 associate pastors will change churches, and 16 men will travel here to begin a year's sabbatical of study at Ambassador College.

associate pastors will change churches, and 16 men will travel here to begin a year's sabbatical of study at Ambassador College. Deciding who will transfer and where "is not an easy task," Mr. Dart said. "Dozens of different considerations have to be made. We tried to take into account each individual minister's desires — where he wanted to serve — but our main consideration was whether his talents would fit the church area where an opening was."

Mr. Dart and his staff have been working on the transfer list since Jan. 15. "We've worked intensively on the ministerial transfers for the past two months," he said, "and they have dominated my time for the last six weeks."

Mr. Dart said Garner Ted Armstrong plans to write a letter of introduction to each area involved, introducing the congregation's new pastor or associate pastor.

Mr. Dart expects these transfer decisions to be final. "But," he said, "it's possible that in a matter as complex as this there will be some changes prior to implementation."

The target date for all transfers is July 15, but the director said "there may be some requests for variances" in the changeover dates from the men themselves.

### **39** accepted for field

PASADENA — Thirty-nine senior Ambassador College students, representing both campuses, have been accepted as part of the ministerial-candidate program, announced Ted Herlofson of the Ministerial Services Department April 21. "These men will locate in church

"These men will locate in church areas of their choice and begin a training program of service as they are able after they have established themselves in occupations," Mr. Herlofson said. "Pastors who feel they would like to have a candidate locate in their area may interest a graduate by providing help in locating a job and home, etc."

The men, who will end their college careers at graduation less than two months from now, will receive no financial support from the Work but will have the opportunity to assist church pastors in ministerial duties. "Where the men locate will de-

"Where the men locate will depend upon their own personal needs and desires as well as manpower needs certain pastors might indicate," Mr. Herlofson said. "The men should be a real help to local churches. They have many talents and varied backgrounds to enrich church areas."

Mr. Herlofson said the ministerial-candidate program is

open to other college graduates and other men in church areas who "meet the qualifications." Anyone interested in the program,

Anyone interested in the program, he said, "should apply to his pastor, who then will make recommendation to the area coordinator. Candidacy status will be granted after a successful interview with the area coordinator, senior pastor and local pastor."

"Mr. Armstrong in *The Plain Truth* has made it clear that he wants to live according to the Bible," she said, "and he has a message for the Turnhalle!"

A date now had to be arranged for the address. After numerous telephone discussions, changes and prayer, Monday, March 14, wasset for a special meeting of the delegates.

The speech by Mr. Armstrong, the transcript of which appeared in *The Worldwide News* of March 28, has borne fruit. Four days after Mr. Armstrong's address the Turnhalle adjourned, submitting its decisions to the South African government. A referendum is soon to follow. Everything worked out in the nick of time. As Mr. Armstrong himself said: "It was a rare, once-in-several-lifetimes experience."

BURLEIGH HEADS, Australia Readers of The Plain Truth in the Southeast Asian Region in the future will receive the magazine from New Zealand instead of the Philippines. Roy Hickford, PT circulation man ager for Australia, announced April 21.

The change was brought about because too many copies were being lost in the mail under the old system, Mr. Hickford said.

BURLEIGH HEADS, Australia - Garner Ted Armstrong's five-minute radio programs are being added to eight stations in this coun-try, announced **Dean Wilson**, director of the Australian Work, April 21.

The stations' call signs and locations and the times of broadcast are as follows: 8HA, Alice Springs, "breakfast time"; 3BA, Ballarat, 1:20 p.m.; 2BS, Bathurst, 6:15 p.m.; 2DU, Dubbo, breakfast time; 7HO, Hobart, breakfast time; 2VM, Moree, time to be announced: 2MG Mudgee, 6:15 p.m.; 2MW, Murwil-lumbah, between 5 and 6 p.m.

All eight stations will air the programs three times a week. Mr. Wilson also said the Gar-

ner Ted Armstrong telecast will be aired in Geraldton, Western Australia, beginning in July, bringing to 45 the number of stations carrying the telecast in this country. The of-fice here hopes eventually to have the telecast on 53 stations that will reach most of the populace.

PASADENA - Entertainer Bing Crosby in an April 15 letter to Garner Ted Armstrong told him 'how very comfortable we all felt working in the environment and in the theatre that you provided for us' for Mr. Crosby's 50th-anniversary television special, which was videotaped in the Ambassador Au-ditorium March 3.

The special, in the form of a star-studded benefit performance, nearly ended in tragedy when the crooner fell 20 feet into the orchestra pit and then had to be hospitalized for a month

The letter, which began "My dear Friend," continued: "I've never seen a community bet-

ter organized or with more poise than your students. They must be very happy there in the environment that ve created for them.

"Certainly it's a beautiful theatre. Sorry my accident had to happen there, but, of course, it could have happened any place, I suppose, but I did want you to know that both Kathryn and I, and of course the children, too, were very much im-pressed with the College, the atmosphere that prevailed and for the many kindnesses and conveniences which were provided for us."

Though earlier reports stated Mr. Crosby might have to undergo surgery for a ruptured spinal disk, he was released April 5 from Peninsula Hospital at Burlingame, Calif., after successful nonsurgical therapy.

academic fees while the recipient is a full-time undergraduate student at Ambassador College here or at Big Sandy, subject to the maintaining of a term and cumulative grade-point average of 3.0 (B) or higher and a commendable personal record.

Recipients may renew for up to three consecutive years unless they complete the bachelor's degree be fore that time.

Any prospective student who believes he or she qualifies may apply by letter to the director of admissions on either campus. The letter, which may accompany the regular application for admission, should indicate the intention to work toward completing the full undergraduate-degree program at Ambassador.

LEXINGTON, Ky. — Most of God's people from the Pikeville and London, Ky., Charleston and Bluefield, W.Va., and Kingsport, Tenn., church areas were spared major damage from the floods that ravaged this part of the country two weeks ago, but a few members did suffer substantial losses.

Two were Bill and Lydia Jones of Harlan, Ky. Joseph Mills, pastor of the Kingsport church, reported water in the Joneses' house was "about up to the ceiling," with the structure and to the ceiling," with the structure and their belongings virtually a total loss, until '15 or 20'' other Church mem-bers came to the rescue by repairing their house and donating furniture and other items and \$1,000.

"Now they're back in pretty good shape," Mr. Mills said.

Mel Dahlgren, minister at London, said, "God was really intervening in every circumstance" in his area.

Gerry Russell, a member of the church here and *Plain Truth*newsstand coordinator for the newsstand coordinator for the U.S. Southeast, said a London member, Clarence Johnston, was "stranded in his house for three days with water all around, but the water never got into the house.

"But the most amazing stories were told by Bill Moore, the minister from Bluefield, W. Va. He said one member, Linda Taylor, watched the river rise to her door, where it crested and started to recede, even though the rain continued to pour down for many more hours. Church members came to the res-

cue, along with the Red Cross and other agencies, to help other affected people. Member Hoyt Mullins of Pikeville spent April 6 paddling his canoe to rescue people stranded on top of cars and houses. Joyce Marshall spent the week monitoring her Citizens Band radio and relaying messages in an area in which all tele phone communications were out. Mr. Russell said members from

areas surrounding the stricken sites have responded by "donating furni-ture, clothing, bedding, food and cash."

Marlow Tackett, who owns the hall in which the Pikeville church meets, "is planning a flood-relief concert for the area May 29 and has asked if the Church and the AICF will help him with the concert. Already he has booked three countryand-western acts from Nashville who are donating their time.

## Mr. Armstrong's bride in Work 15 years

traveling team often ate meals to-gether when there were no formal genier when there were no formal occasions scheduled. Mr. Armstrong said it was "at these dinners I gradu-ally got to know her, and discovered a woman of talents and abilities far superior to what I had realized."

Mr. Rader said Mrs. Martin's role with the team expanded steadily over the course of the next three years. "Mrs. Martin proved herself more and more valuable to us, and in addition to serving as my secretary she became more of an assistant and aide to me. She had a special knack for getting things done that no one else could accomplish."

As Mrs. Martin's contribution to Mr. Armstrong's team increased, she grew much better acquainted with him. Mr. Armstrong said he grew more and more impressed with her abilities and personality, realizing finally that he was in love with her.

"At banquets and social occa-sions, Ramona many times had close contacts with wives of high-ranking officials," Mr. Armstrong said. "It was clearly evident that she fit in perfectly and was well accepted by any and all of them, as well as their husbands. She was entirely capable of macting them on their shows the start of meeting them on their own social

Mr. Armstrong came to the con-viction that God was giving him "precisely the right woman for a new need I was now beginning to realize: a wife who could travel with me most of the time, a woman strong enough and young enough to withstand the grueling rigors of world travel which I must continue in order to get out Christ's Gospel message."

### 15 Years in Work

Mrs. Martin was first employed in the Work in 1962, a short time after she was baptized, and held various responsibilities in Pasadena over the vears

years. In 1973 she began to gain Mr. Ra-der's notice as a highly competent indi-vidual. "I became very impressed with her abilities. She could get things done. She was able to follow through and accomplish things no one else in Pasadena could."

RAMONA ARMSTRONG

In 1974, while still working for another department, she began han-dling special projects for Mr. Rader

"such as acting as hostess for visiting VIPs, mostly those we had contacted around the world," Mr. Rader said. "As Mr. Armstrong and I spent more and more time away from Pasadena, it became necessary for us to have someone covering for us while we were away. It had to be just

the right person who could strengthen the bridges Mr. Armstrong was building with people in his travels. Whenever any of our friends would visit Pasadena while we were out of town, she would meet them at the airport, get them situated in their hotels and escort them on tours of the Pasadena campus.

"She did such a great job that it was only natural that she joined our team when she did during the Manila campaign." Mr. Rader pointed out that for

years all of her experience and train-ing had prepared her to be the kind of person Mr. Armstrong needed.

### Family Background

Mrs. Armstrong, 38, is the former Ramona L. Crittenden of Muskogee, Okla. Her mother, Mrs. Richard D. Crittenden of Pasadena, has been a member since 1962, and Mrs. Armstrong has a sister, Mary Ellen Dahlgren of Sierra Madre, Calif. Her father died in 1969.

She has a 15-year-old son from a brief marriage that ended during her pregnancy and was subsequently an-nulled.
